

Smart homes

Sigfox-enabled solutions address a wide range of use cases

Powered by Sigfox's global network dedicated exclusively to the Internet of Things, the next generation of smart home solutions is more secure, versatile, and affordable than ever before. It's a smarter set of tools for a more connected world.

Reliable, connected security systems and fire alarms running on Sigfox keep your family safe, while remote leak detection and infrared rodent monitors deliver 24-7 peace of mind. Enjoy modern conveniences at an affordable price, like remote pool water readings and instant package arrival notifications.

Connected alarms: reliable security uptime

Connected smoke detectors: reliable uptime and fire alerts management

Real-time remote water leak notification

Avoid rodent infestations

Pool water quality monitoring: now everyone can afford a pool keeper

Connected mailboxes: you've got a mail

About Sigfox

Sigfox is the world's leading service provider for the Internet of Things (IoT). The company has built a global network to connect billions of devices to the Internet while consuming as little energy as possible, as simply as possible.

Smart homes

Sigfox-enabled solutions address a wide range of use cases

You can even track everything from pets to your next hiking itinerary without worrying about weak GSM coverage and dropped signals.

Forget ruined vacations or business trips by putting an IoT-connected tracker in your bag to track the location of your luggage on your smartphone whilst you're traveling.

Growing numbers of seniors are staying longer in their own homes. IoT-connected time card readers monitor care providers and automate billing based on actual time spent in the home. IoT-connected watch sends alert in the event of a fall or if grandma pushes the panic button.

Outdoor sports: performance tracking and better security

Connected collar: no more lost pets

Connected luggage: no more ruined vacations or business trips

Time card reader: monitor the attendance of care providers for seniors

Fall detector: immediate alerts
